1 April 1964

Mr. Stern:

Following up our conversation of last Friday, I am attaching on a loan basis a copy of a small classified paper entitled: "A National Name Index Network". You will find it of interest, I am sure.

If you are interested in earlier references (footnoted), let me know informally. Actually, they are not necessary for your appreciation of the piece but we would be happy to make them available if you desire.

Raymond G. Rocca
